Dear Mr. Dan Glickman,

While I support a review of the approval process for biotech products in light of long-term environmental and health **safety** issues, **I encourage you to support mandatory, rather than voluntary, industry labeling of foods containing genetically engineered ingredients.** Consumers have the right to know and choose what is in our food, and *companies should be required to inform us of all ingredients, transgenic or not.*

I appreciate you taking the time to read this letter and protecting the public health of the USA.

Thank you,
